

Hancock County, Georgia
Court of Ordinary Minutes 1838 – 1863

INDEX

About the Index

This is a complete name index. The only variance is found in abbreviated given names. The name recorded as "Wm" in the text, for example, might be listed under "William" in the index. The **pages shown in the index are those by our book page numbers and not by the original page numbers.** *Please note that the Clerks Index is separate from the master index.*

It is not acceptable to change a name in the text even though the writer knows it is spelled incorrectly. For this reason, the reader may find a name in the index spelled both ways; that is what the writer believes it should be and the way it was apparently spelled by the clerk. Always, it is intended that the spelling of the clerk be shown in the text.

Some names to watch which seem to be confusing are: **Horton - Harton.** Both families are in these records. Since the only letter different in these two names is the second letter "a" or "o", it is difficult sometime to determine what the clerk intended. Further, sometimes it seems clear that the name is Horton, but yet it is as clearly spelled Harton. The name **Hunt - Hurt** are as equally confusing. Both families are in the records, but again there is only one letter difference in the name. Often it is impossible to distinguish the difference between the "r" and the "n". The name **Kennedy/Kennerly/Kenny** was seemingly used interchangeably. While in some cases the persons may be different, usually it appears that the same person is listed in these different ways. The name "**Pritchett**" has been recorded by the clerks as "**Pritchell**". It is clear that the name is often spelled with the absence of the crossing of the last two letters of the name. We have recorded it as Pritchell in instances, by requirement, but the name is also shown in the index as Pritchett

Clerks Index

Note: This index was entered by the Clerk. Page numbers are unreadable in some cases, and is not verified by search. See the master index

This Index is followed by the book's master index
